Group members

Group Members

Ming Lei (u7172618)

Principal Investigator of the project.

Build the basic structure of the game. Leading the group to finish all of the D and HD tasks.

Complete most part of the GUI part of the code independently.

Duo Liu (u7190717)

Build the basic structure of the game. Design the interface of the game. Implement a new strategy to accelerating system judgment so that task5, 6, 9 can pass in time. Complete the pdf file of initial structure and final presentation.

Xinyi Jiang (u6891814)

Build the basic structure of the game. Modify the GUI part of the code to make it more practical (add How to play, quit game button etc..). Host the meeting for the group as well as complete weekly journal(admin file).
